Important information for purchasing

Spreitenbach, February 2025

**Last Order Notification:
LinMot Drives A1100 Series**

Ladies and Gentlemen

Production of the processors installed in the A1100 series drives will be discontinued. As the matching replacement types are also on the same phase out plan, the A1100 series drives must be discontinued.

Please note the following dates for this announcement:

Information: Last Order Date December 31, 2025

Orders can be placed up to the last order date to secure all-time requirements. These binding, non-cancellable orders will be delivered by December 31, 2026. For larger quantities, the delivery date can be extended until December 31, 2028 with a storage fee. Any orders after the last order date will incur a significantly higher price and availability is not guaranteed.

Discontinued product: Spare parts service from January 1, 2026

After January 1, 2026, the A1100 series drives will be available as spare parts until at least January 1, 2032. This applies to the replacement of defective devices. If necessary, the availability of replacement devices will be ensured by repairing used devices.

Discontinued product: January 1, 2036 at the latest

The A1100 series drives will be discontinued by January 1, 2036 at the latest. Spare parts service, support and advice will be definitively discontinued on this date.

If you have any questions about this product discontinuation, the products or orders, please do not hesitate to contact the LinMot technical salesperson responsible. If you have any questions about replacement products, LinMot technical support will be happy to help. You may find the contact details of your contact person at www.LinMot.com.

With kind regards

NTI AG
LinMot & MagSpring

Recommended substitute products

For new applications and ongoing projects with large quantities, we recommend switching to the new F1050 series drives. These drives were developed as a successor to the A1100 series and are available with CAN and now also with EtherCAT interface.

Replacement in existing and for new applications – Drive Series F1050

Successor Series F1050

F1050-DS-HC-0S-000

Mini Drive (72V/15A)

EtherCAT / CANopen

[0150-6767](tel:0150-6767)

Further information on recommended replacement products can be found in the appendix and in the e-catalog at www.LinMot.com.
