Important information for purchasing

Spreitenbach, February 2025

**Last Order Notification:
LinMot Drives C1100 Series**

Ladies and Gentlemen

Production of the processors installed in the C1100 series drives will be discontinued. As the matching replacement types are also on the same phase out plan, the C1100 series drives must be discontinued.

Please note the following dates for this announcement:

1. Information: Last Order Date July 31, 2025

Orders can be placed up to the last order date to secure all-time requirements. These binding, non-cancellable orders will be delivered by July 31, 2026. For larger quantities, the delivery date can be extended until July 31, 2028 with a storage fee. Any orders after the last order date will incur a significantly higher price and availability is not guaranteed.

2. Discontinued product: Spare parts service from August 1, 2025

After August 1, 2025, the C1100 series drives will be available as spare parts until at least August 1, 2031. This applies to the replacement of defective devices. If necessary, the availability of replacement devices will be ensured by repairing used devices.

3. Discontinued product: August 1, 2035 at the latest

The C1100 series drives will be discontinued by August 1, 2035 at the latest. Spare parts service, support and advice will be definitively discontinued on this date.

Information on suitable successor and replacement products can be found in this letter and in the attachment.

If you have any questions about this product discontinuation, the products or orders, please do not hesitate to contact the LinMot technical salesperson responsible. If you have any questions about replacement products, LinMot technical support will be happy to help.

With kind regards

NTI AG
LinMot & MagSpring

Recommended substitute products

For new applications and ongoing projects with large quantities, we recommend switching to the new F1100 series drives, developed as a successor to the C1100 series. In existing systems, plug-compatible drives from the C1200 series can be used as a replacement after checking the application.

Replacement for new applications - F1100 series

Series C1100

0150-2380	C1100-GP-XC-0S-000	CAN & I/O
0150-2382	C1100-EC-XC-0S-000	EtherCAT
